Open, play, celebrate.

Your easy-start guide: no accounts, no PowerPoint, no internet needed.

1

Download and unzip

Save the ZIP file to your laptop or desktop computer. Unzip it to a folder before you play.

2

Open the game

Double-click OPEN_ME_Baby_Shower_Game_Night.html. If it does not open in a browser, right-click and select Open With > Chrome, Edge, Firefox, or Safari.

3

Personalize your party

Enter the shower title, two team names, and two parent names (for the Who Will It Be? poll). Choose one of the four pastel themes.

4

Choose your play time

Pick 5 rounds for a quick game or 10 rounds for a full game. Each session draws random prompts from a larger bank of 116 ready-made cards.

5

Start the games

Play on a laptop or connect your computer to a TV with HDMI or screen mirroring. One host controls the screen and guests answer out loud.

6

Award points

Reveal the answers, then use the on-screen team buttons to score. Scores carry from one game to the next. Use Undo to correct a tap.

Helpful before guests arrive

Test the game in your chosen browser, turn on fullscreen, and keep this guide or the host answer key on a separate device. Sound is optional and off by default.

Host cheat sheet.

Five party games, one seamless celebration.

01 BABY SHOWER SHOWDOWN

Read the question. Guests guess answers. Tap a matching numbered tile to reveal it and add its fictional point value to the round bank. Use Wrong guess up to 3 times; award the bank to a team. The last two rounds score double. Keep the separate answer key out of the projected view.

02 OH BABY! TRIVIA

Read the question and answer choices. Guests say A, B, C, or D. Tap Reveal, then award 10 points to the correct team. The timer is optional.

03 EMOJI BABY DECODE

Ask guests to decode the emoji sequence. Reveal the sample phrase when ready. Award 10 points to the first correct team.

04 GUESS THAT BABY PRICE

Guests guess the party price of a baby item. Tap Reveal and award 10 points to the closest team. The prices are illustrative only; you can edit them from the home page.

05 WHO WILL IT BE?

Ask guests which parent is most likely to do the activity. Guests vote by raising hands. Host taps each parent or Both once per vote, then reveals the crowd result. This is an opinion game with no right answer.

Useful controls

Showdown shortcuts: 1-6 = reveal; X = strike; A / B = award; N = next. Ctrl/Cmd + Z = undo. Press Esc to close popups. Party setup can be exported and imported as a JSON file for backup.

Before you list or gift.

Compatibility, privacy, and fair expectations.

WHAT YOU ARE GETTING

One self-contained offline HTML party app with five games, an illustrated quick-start PDF, a private answer key, and two printable bonus activities. No software installation, account, or subscription.

RECOMMENDED DEVICE

A laptop or desktop computer with a current Chrome, Edge, Firefox, or Safari browser. Large screens or TVs make hosting easiest. Phone browsers may display the game, but a desktop is recommended for hosting and local file handling.

ONE HOST, ONE SCREEN

This is not an online multiplayer room. Guests do not join from separate phones. The host clicks the controls and manages scores.

SAVING YOUR PARTY

Preferences and scores may be stored by your browser locally. Some browser privacy modes restrict this. Use Export party setup to save a portable backup. No personal data is sent to a server.

ENTERTAINMENT VALUES

Showdown score distributions are invented for entertainment (not from a verified survey). Baby item prices are example values, not live prices. Please replace them if you want current local pricing.

PRINTING & TROUBLESHOOTING

Print BONUS_PRINTABLES.pdf at Actual Size, US Letter. If game controls do not respond, use a current browser and ensure JavaScript is enabled. The game file must retain its .html extension.

PERSONAL-USE LICENSE

For personal celebration use only. Do not resell, redistribute, upload, or repackage the game or printables. This product is not associated with any televised game show.
